CBSE BOARD WITH DEENIYAT

Proposed upto
class XIIth

*The
Palm
Academy*

Principal Message

"IN THE NAME OF ALLAH THE MOST GRACIOUS THE MERCIFUL".

All the praises and thanks be to ALLAH Almighty, the giver of bountiful blessings. Prayers and peace of Allah be upon the noble prophet and upon his family and companions.

We live today in a world that is so very different from the one we grew up in, the one we were educated in. The world today is changing at such an accelerated rate & we as educators need to pause & reflect on the entire system of education. Are our schools well equipped to prepare our children to face the challenges that the future holds? Are our schools ready to face the challenge to protect our youth from the onslaught of the negative forces that are at work? Questions such as these are factors that motivate us to go through a continuous process of reflection & hence we at TPA work at implementing a well balanced curriculum to achieve holistic development of our children where we guide students to develop capacities, acquire knowledge & virtues.

We have taken a completely new turn for blooming up the education system by striving for excellence in every possible field & achieving it in a spectacular way.

Our motto "come to learn, leave to serve" not only goes with the rigorous scholastic programmes but also we seek to develop & nurture the different facets of a child.

A committed and supportive management, dedicated teachers, caring and co-operative parents blend harmoniously to create a child-centric school. I am very sure through collaborative effort we can achieve more to benefit our students who are the future leaders of tomorrow.

as it is aptly said:

vision without action....is just a dream

action without vision...just passes the time

but, vision and action... can change the world

Mrs. S. Madani
Principal
The Palm Academy

From the Vice Principal Desk

True education releases capacities, develops analytical abilities, confidence, will, and goal-setting competencies, and instills the vision serving the best interests of the community.

It's my pleasure and privilege to serve as the Vice-Principal of The Palm Academy... not only because it's my passion but also because I enjoy the company of my dearly loved students and talented and zealous teachers who keep me energized all the time.

TPA is not just ONE more school in the already long list of educational institutions in the "Historical City", but it is ONE school which has made a great difference in its Qualitative journey of seven years. Our children represent our hopes and dreams. As a parent, you certainly want the best for your child and we are indeed happy to be working with you to ensure that they are given the right knowledge to face future challenges.

The Management, Parents, Students and the Teaching Fraternity are a team and complement each other's efforts. Education is not just a process of giving knowledge for a high profiled job but a lifelong process which creates-an understanding of moral and ethical values to guide and make our students morally upright citizens of the country.

We try to create an atmosphere of reverence for education and a healthy environment where academics , sports and co-curricular Facilities mould our students and motivate them to be the brightest and the best. In order to do this, the school works towards inculcating certain values in the students in order to enrich their mind and spirit and also to develop essential moral attributes like truthfulness, courtesy, generosity, compassion, justice, love and trustworthiness in them. The students are taught to study in an atmosphere of love and unity where each student sees himself or herself as a member of one global family, free from the prejudices of ethnicities, nationalities, class and religious dogmas.. "If a plant is carefully nurtured by a gardener, it will become good, and produce better fruit. Therefore, children must be given a good training from their earliest childhood."

This is what we at TPA are striving to do, Our role is identical to that of a gardener and we strive to perform this role to the best of our ability by nurturing these 'seeds' at school so that they bear the " Best Fruits " in the years to come.

I am very grateful to each and every member of the TPA fraternity, our staff who know very well how to synchronize and harmonize with our process of growth. Our Students who constantly show by their performance and conduct that it makes a difference to be a student of TPA and last but not the least Our Parents whose trust inspires us to move ahead ...!!.

We wish you and your child a very rewarding experience at TPA....!!

Ms. Halima Sadia
Vice-Principal
The Palm Academy

Our Philosophy

In The Palm Academy, the teaching is not about knowledge transfer but for fostering excellence. We believe in opening the minds of the pupils. We guide them to learn by doing, stressing on the all round development of a child's personality.

The education system of the school besides providing an all round education intellectually, socially, emotionally and physically, offers guidance in critical thinking, social openness and purposeful research.

Students are given opportunities to develop their own talents as well as to be aware of national & global issues while contributing to the healthy development needs of the community. The complete education system is based on true Indian values with all modern techniques and technologies for overall personality development of the children.

Each child is unique and a treasure house of talents. Helping children discover, polish and bring forth to the world their treasure, is the self aim of education imparted at The Palm Academy.

The school provides exposure, training and platform through various clubs to showcase their talents. Whether it is art & craft, information, literary, theater, music or sport, children are given ample opportunities to identify and develop their abilities and areas of interest. The goal is not to help each child make a career out of his/her talent but to get in touch with his/her inner creativity.

Our Core Values

Our mission - Why we are here

- To impart knowledge in order to activate the intellect, generate curiosity form proper attitudes, inculcate human values, fearlessness, self reliance etc. all of which go to make a perfectly integrated personality.
- To provide wholesome development of the child i.e. the intellectual, moral and social development.
- To foster simple values of life in the child's education at all levels, ensuring promotion of rich Indian values.
- To acquaint the students with Nation's cultural heritage & with the principals of democracy, secularism and national integration.
- To grow each child into creative & confident citizen in wide range of activities so that he/she can achieve success in life.
- To raise the potential of each child to stand successfully not only at national but also in global scenario.

Our Approach

How we achieve it -

Pursue excellence and all else shall follow. We aspire to instil the right attitude, moral values and vision that will prepare the students for life time of continued learning and leadership in their chosen career.

Our Values

What we believe in

- Student success
- Lifelong learning
- Respect; integrity; Trust, Honesty and Ethical Behaviour
- Continuous Quality Improvement
- Excellence

Living Beyond Books

We, at The Palm Academy, believe that education lies beyond the textbook and that true learning comes from self enquiry and research, from discussion, from extra reading and from encouraging the natural curiosity of young minds. We believe that it is important to ensure the overall development of their senses. The school encourages experimental learning through:

- Smart Class
- Day Picnics
- Model Classroom
- Trips & Excursions
- Adventure Camps

The arts at the school is seen as an effective & powerful medium of self exploration, self expression and tuning in to the inner self.

A. The Growing Year - Year 2 - Year 6:

- Learning is made interesting, fun and activity oriented at this level.
- Students are encouraged to participate in class activities like singing, drawing, colouring, writing, group games, clay modeling, puzzles and recitation.
- Focus is on laying foundation for literacy, numeracy and comprehension skills and on reinforcing and innate sense of discovery in everything that is taught.

B. Primary Level - Class 1 to Class V:

- A thematic approach is designed to stimulate the children through various interactive session and activities.
- Project works in class calls for mass participation. An equal emphasis is laid on developing a strong sense of individuality

C. Middle Level - Class VI to Class VIII:

- The emphasis is laid on building up the structured student centered and enquiry based foundation laid at primary level.
- The curriculum is research oriented and learning opportunities are provided through worksheets in classroom, laboratory time, computer labs and group discussion.
- Personality development is stressed through development of academic knowledge, the ability of question, sensory experiences and a honing of creative expressions.

The Campus

The school has an idyllic, spacious campus designed to provide holistic school education. Its serene location, secure environment, aesthetic infrastructure and complementing ambience maps it an ideal setting to acquire knowledge. The school facilities are designed to comprise of:

- Modern classrooms
- Well equipped library
- Science Labs - Physics, Chemistry, Bio
- Computer Lab
- Language Lab
- Art and Crafts Room
- Audio Visual Rooms
- Auditorium
- Kids Activity Room
- Indoor Sports Hall
- Basketball Court
- Children's Play Area
- Play fields

Sports

For true integrated growths to take place, children's physical self must be systematically developed. Sports facilities of our school includes indoor games and outdoor sports.

The sports curriculum is designed according to the different needs of different age groups. In the pre-primary and primary classes, emphasis is laid on the development of gross motor skills, physical stamina, flexibility, balance, strength, hygiene, overcoming physical fears and hesitations and the development of team play. In the primary classes, games with rules become increasingly important. Team accomplishments compliment individual goals for excellence. Gradually skills of play and precision with mastery assume greater significance for students of the secondary and higher classes.

Indoor facilities include -

Table Tennis, Taekwondo and Badminton.

Outdoor facilities include -

Basket ball, Cricket and Athletics.

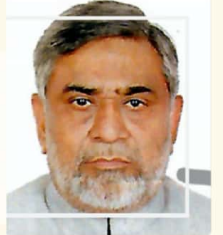

Expression...

Mr. Salim Sherwani - We should never forget that Allah is the only one who can grant respect or disrespect to anyone he wants. And we can only achieve success in this life & the Aakhirat. We obey & follow his rules. Therefore, I am very happy today that the Palm Academy is not only providing worldly education but Islamic Education also which will keep our children to become & above all a better human being with best qualities. (Inauguration Function 2012)

Prof. Akhtarul Wasey - It is a great pleasure for me to be speaking about a school like The Palm Academy, who have inculcated Islamic values along with the worldly education so beautifully. I wish & hope that there will be more schools like the The Palm Academy where our children can shine & prosper just as Sir Syed Ahmed Khan had dreamt that the children of India can only flourish when they have science in one hand, philosophy in the other & Islamic values in their heart. (Annual Function 2014)

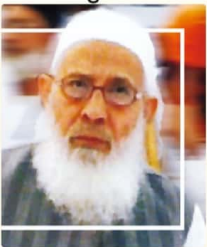

Dr. Muqaddam - Today I saw our children who show us the beloved way of the Prophet (SAW), which helped me in my Ruhaniyat. The children have showed us how physically fit we need to be. I am really honored to be a witness what these children have presented today. They have shown how a holistic education should be. They have proven that education is not just for the body or mind but it is for the heart also. I would like to give a heartfelt congratulation to the Palm Academy for nurturing the talents of these children & presenting it so beautifully. No doubt they have done a tremendous job the whole year, the result of which has astonished us greatly. -(Annual Function 2015)

Maulana Mahmood A. Madani - To achieve success in life the complete balance of education is necessary, the example of which has been shown by The Palm Academy. I would like to congratulate the school or its success & for the beautiful performance of the students. The huge effort behind this success cannot be neglected.

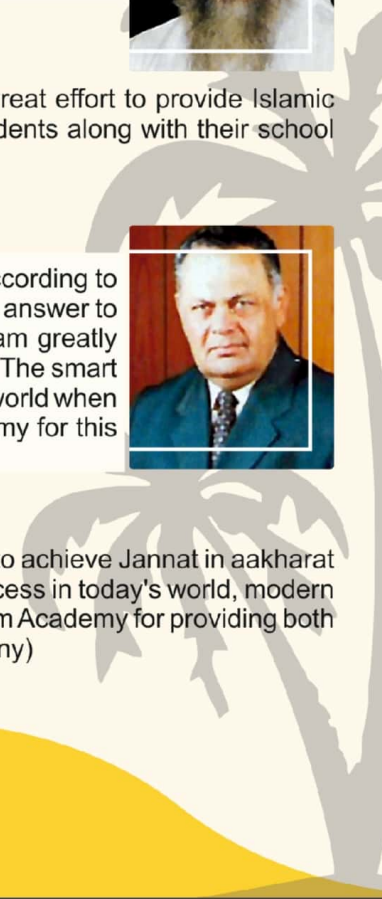

Mr. Siraj Qasmi - I very humbly congratulate The Palm Academy for their great effort to provide Islamic Education with Modern education. Their aim to provide Hifz for selected students along with their school education is very much note-worthy.

P.A. Inamdar - In today's age to talk about teaching a class on black-board & chalk is a crime according to me. For ages the talents & search for a good teacher is going on but new technology is giving the answer to that. If we don't accept technology into our lives then we will be left far behind. Therefore, I am greatly thankful to the Palm Academy for providing a world class education system based on technology. The smart classes that are being provided by this school will greatly help our children to get ready to face the world when they will come out of the school life. Once again I would like to congratulate The Palm Academy for this amazing contribution to society. (Teacher's Training Programme in Pune)

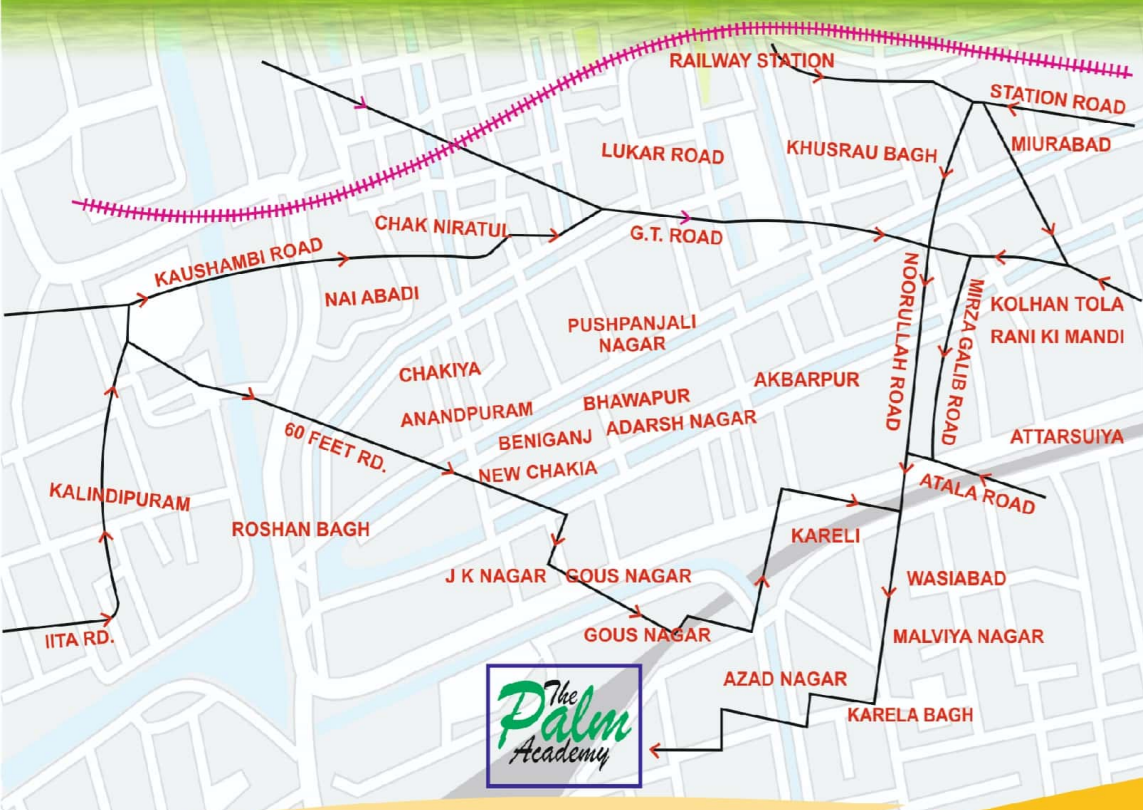

Qari Usman Sb. Mansoorpuri - We know that to make our aakhirat peaceful, to achieve Jannat in aakhirat Islamic education is of utmost importance, in the same manner to achieve success in today's world, modern education has also become important. And I would like to congratulate The Palm Academy for providing both these education & that too with best available tools. (Foundation Stone Ceremony)

The Palm Academy

APPROX 3 ACRES LAND
FOR PROPOSED
BUILDING
